

A tensile fabric hexagonal coned gazebo with a timber frame

## Arundel

- Wide range of fabric colours available
- Accessories include lighting & IR heating
- Warranted for ten years under tension
- ArcCan installation teams operate Worldwide

The Arundel is hexagonal timber framed gazebo with a tensile fabric coned canopy supported on tubular steel rafter spars. This distinctive structure provides ample space for seating guests around a circular table, or perhaps as a covered performance space for schools or clubs. The structure can be specified with a softwood frame in rustic or joinery finish as well as Oak or Iroko to blend in with the surroundings. The purchase of an Arundel represents a sound investment as it has been engineered to high standards and will provide a long and useful life.

# Specifications

## Arundel

A tensile fabric hexagonal coned gazebo with a timber frame

### Framework

Timber frame available in a variety of wood types and finishes with H/D tubular steel rafter spars zinc & powder coated to a RAL colour of choice, all fixings either stainless or galvanised steel.

### Fabric

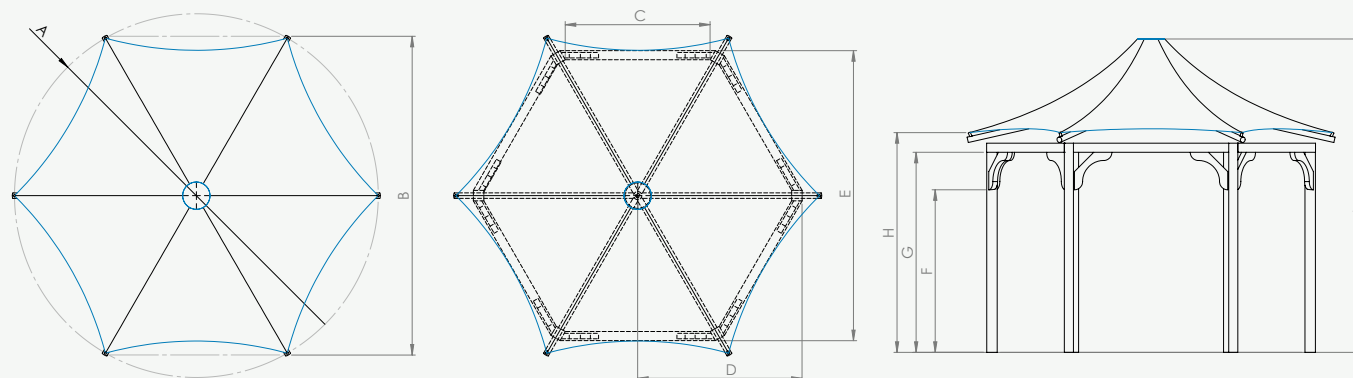

Architectural PVC coated polyester fabric, cut patterned and welded to form a shaped cone with H/D boundary webbing tensioned with a central S/S threaded push-up.

### Foundations

We provide loading figures for your engineer to design foundations to suit local ground conditions. Typical details available on request.

### Files

3D CAD models are available on request.
