

A tensile fabric square coned gazebo with a tubular steel frame

Fontwell

- Wide range of fabric colours available
- Accessories include lighting & IR heating
- Custom designs include rectangular and multi-coned styles
- Warranted for ten years under tension
- ArcCan installation teams operate Worldwide

A very popular choice for schools, home and garden, restaurants, and hotels. The stylish, slim and unobtrusive, but exceptionally strong tubular steel framework with four rafter spars supports a tensile fabric cone with four graceful scalloped edges. Fully engineered to withstand the worst weather imaginable, the Fontwell is one of our most popular models providing canopy sizes up to 49 square metres.

Specifications

Fontwell

A tensile fabric square coned gazebo with a tubular steel frame

Framework

Heavyweight grade tubular steel legs with CHS rafter spars and side struts, all zinc and powder coated to RAL colour of choice, all fixings either A2/A4 stainless or galvanised steel.

Fabric

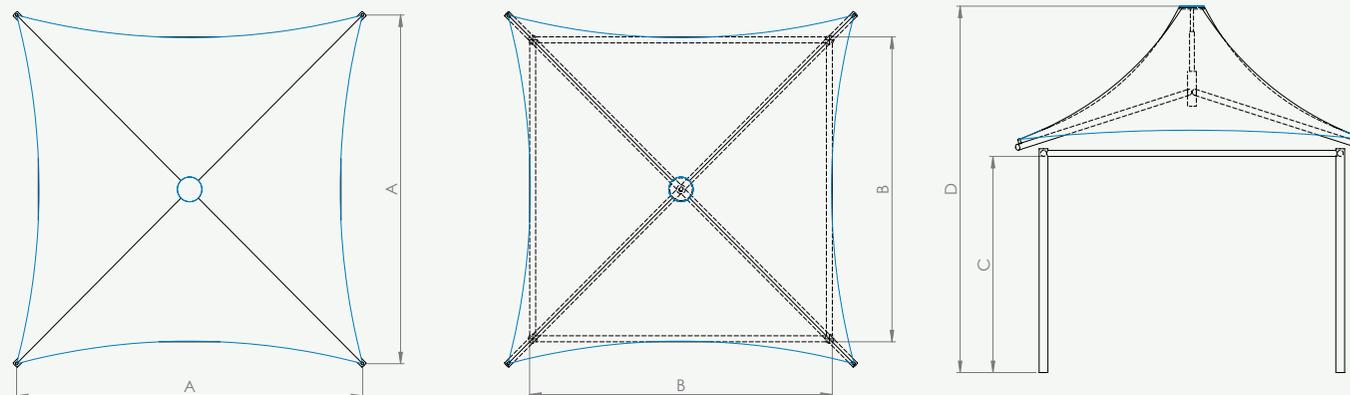

Architectural PVC coated polyester fabric, cut, patterned and welded to form a shaped cone with H/D boundary webbing, or stainless steel membrane plates and boundary cables, tensioned with a central S/S threaded push-up.

Foundations

We provide loading figures for your engineer to design foundations to suit local ground conditions. Typical details available on request. Typical details available on request.

Files
