

A tensile fabric wall mounted single pitch canopy with tubular steel frame

Sandhurst

- Wide range of fabric colours available
- Fully adaptable including custom designs
- Warranted for ten years under tension
- ArcCan installation teams operate Worldwide

The Sandhurst is a modular single pitch canopy with tensile fabric panels. Fabricated from circular & square hollow section welded steel tube it is a wall mounted structure ideal as an entrance canopy or when extended by adding units, it creates a walkway. Engineered to withstand heavy rain, wind & snow, the units are available in a range of lengths & depths that allow flexibility of design.

Specifications

Sandhurst

A tensile fabric wall mounted single pitch canopy with tubular steel frame

Framework

Heavyweight grade tubular steel legs and struts with SHS rafter spars, all zinc and powder coated to RAL colour of choice, all fixings either A2/A4 stainless or galvanised steel.

Fabric

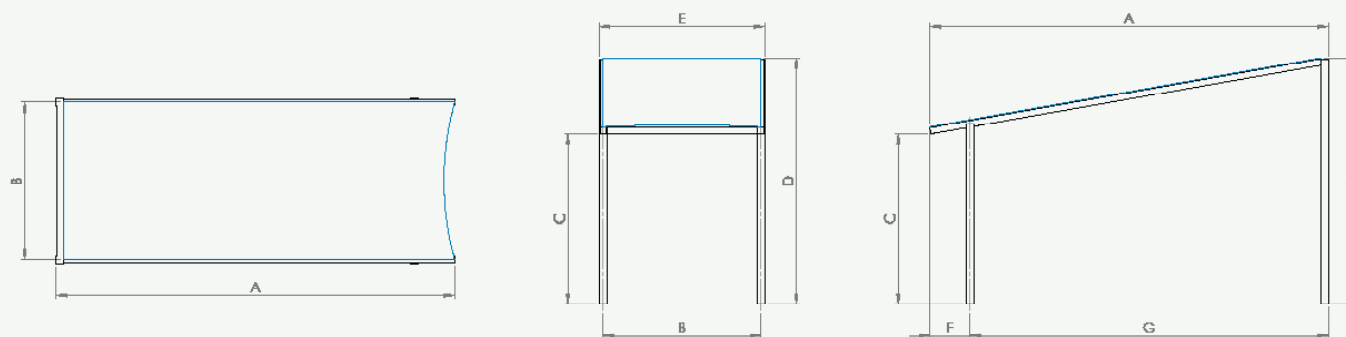

Architectural PVC coated polyester fabric fabricated into panels with keder edges attached on top of the spars and the rear cross-member with aluminium extruded luff-tracks and tensioned with membrane plates and boundary cables.

Foundations

We provide loading figures for your engineer to design foundations to suit local ground conditions. Typical details available on request.

Files

3D CAD models are available on request.
